Summary discussion

- Information and education projects are addressable on the website
- Not all the nurses have access to a computer at work or at home
- e-learning does not have high priority at the moment
- We need to think about providing education on general and advanced level

Summary discussion

- ▶ Level of acceptance of EONS product is a concern, collaboration with other societies can be very useful
- ▶ Suggestions and educational needs: Titan, Target, symptom management, palliative care, new therapies
- ▶ Language issue: need to explore possibility of translating by member societies
