

Your gateway to the Latest Developments in Oncology

Webcasts from the scientific programme of the 2011 Multidisciplinary Cancer Congress, the largest platform for practice-changing data in Europe, are available from 10 October onwards.

Cancer management is a multidisciplinary endeavour and oncology nursing plays a key role in providing multi-faceted care for improving the treatment, rehabilitation and palliative care of cancer patients.

View the abstracts online using our searchable programme to get a taste of what is in store:

<http://stockholm2011.ecco-org.eu/Programme>

What you get:

- Experience sessions as if you were there including nursing oncology sessions
- Search by track, session or speaker
- Ability to fast forward by topic
- Speakers' mouse movements have been captured
- Slides are synchronised with audio

How to get it:

- Free access for all participants of the 2011 Multidisciplinary Cancer Congress
- Advantageous rates for non-participants, as follows:
 - €299 for ECCO Members*
 - €399 for non-members
 - €99 Emerging Economy Rate

Available from 10 October onwards: <http://stockholm2011.ecco-org.eu/Webcasts/>
