Interactive Workshop: Facing a Future of Long Term Conditions: Challenges for Cancer Nurses

08:00 - 09:00

08:00 Coordinator: B. Grube (Denmark)

As survival improves and the population ages, people with cancer often live with several long term conditions and co-morbidities. The management of long term conditions is a major challenge for healthcare today, and nurses must act and respond appropriately. This workshop explores the challenges for cancer nursing and discusses ways in which we can ensure that the needs of people with multiple comorbidities are met.
